Sh. Bighneswar Patnaik
Principal
★★★★★

In the historic and culturally magnificent city of Moscow stands an institution that beautifully represents India on foreign soil – the Embassy of India School Moscow (EOIS). Established in 1987, the school has grown into far more than an academic institution. It is a cultural bridge, a diplomatic symbol, and a nurturing ground for young global citizens. For nearly four decades, EOIS Moscow has preserved Indian educational values while embracing international exposure, shaping generations of students into confident, capable, and culturally rooted individuals.

A Vision Established in 1987

The foundation of EOIS Moscow in 1987 marked a significant milestone for the Indian community residing in Russia. Established under the patronage of the Embassy of India in Moscow, the school was created to provide high-quality Indian education to the children of diplomats, expatriates, and professionals living abroad. Over the years, it has maintained discipline, academic rigor, and a strong moral foundation.

Student Community & Personal Attention

One of the school's greatest strengths is its close-knit community. With a manageable student population, teachers are able to provide individualized attention. This ensures that every child's academic progress and personal development are carefully nurtured.

Alongside academics, EOIS encourages self-development through responsibility, regular participation in class activities, and constructive teacher mentorship.

Academics- The Intellectual Pulse of our School

EOIS Moscow follows the curriculum prescribed by the Central Board of Secondary Education (CBSE), based on guidelines from the National Council of Educational Research and Training (NCERT).

The school offers a broad and balanced academic program including:

- English and Hindi
- Mathematics
- Science (Physics, Chemistry, Biology)
- Social Science
- Commerce Subjects
- Computer Science
- French & Russian Language

Global Exposure Through BRICS Initiatives

One of the most distinguished aspects of EOIS Moscow is its participation in programs connected to BRICS .

A proud milestone in the school's journey was the opportunity for Class XII students, accompanied by teachers, to travel to Saint Petersburg to attend forums and academic discussions. This experience provided invaluable exposure to international dialogue platforms. It reinforced the idea that education is not confined within classroom walls but extends into global engagement.

Pariksha Pe Charcha with Hon'ble PM of India

A Legacy of Excellence and Cultural Diplomacy

Along with academics, EOIS Moscow embodies cultural diplomacy and international friendship. Every celebration, every examination result, the forum attended in Saint Petersburg reflect the school's commitment to shaping responsible and globally aware individuals.

EOIS Moscow stands not merely as a school, but as a beacon of Indian education across borders, shaping future leaders who carry both wisdom and values into the global community

Publications and Creative Expression

The school magazine serves as a vibrant creative platform where students enthusiastically contribute articles, poems, artwork, and reflections, effectively capturing achievements and preserving cherished memories of each academic year. Participation in literary activities such as debates, essay writing, elocution, and creative writing workshops further strengthens students' confidence and hones their communication skills. Additionally, involvement in cultural festivals, music and dance performances, art exhibitions, science days, and quiz competitions allows students to showcase their multifaceted talents.

Sports and Physical Education The Competitive Edge

Sports and Physical Education at EOIS Moscow focus on holistic growth through various activities like athletics, badminton, table tennis, chess, football, hula hoop, and yoga. Students can also participate in basketball, volleyball, and kho- kho, aerobics developing teamwork, discipline, and fitness. These activities promote physical well-being, mental toughness, and social skills .

Excursions - Learning beyond the classroom

School excursions are essential, refreshing breaks that extend education beyond the classroom, fostering real-world learning and school bonding. The school is organizing such excursions and trips to give students diversified exposure to literary, artistic, academic and historical sites.
